

November 28, 2016

On behalf of our Board of Directors, our volunteers, and most especially the patients that we serve, we want to THANK YOU for being a part of The Friendship Clinic's 12th Anniversary Celebration! With your help, ***we surpassed our goal of raising \$30,000*** to continue providing the ***essential*** service of basic health care to underserved members of our community.

As an all-volunteer organization, our clinic is built around the central model of service *by* members of our community *to* members of our community—meeting the essential health care needs of others who have no way to access it for themselves. Our clinic exists only through the gift of time and talent from caring health care providers, the gift of space from All Saint's Episcopal Church, small grants from local foundations and organizations, and most importantly, through the ongoing generous support from individuals like you! ***It is YOUR support that plays the largest part in the continuation of our organization's work!***

We will continue to provide individuals and families the health care they are unable to afford. Our patients will continue to receive counseling, medications, physical therapy, social services, psychiatric care, referral to medical specialists, and of course, basic health care services. Please know the impact your donation has made in the lives of all our patients: for every \$200, the clinic is able to provide another patient-visit. What a fabulous achievement! Again, we say *Thank You!* We are continually inspired by the dedication and generosity of donors like you, and for the compassionate medical providers who answer the call to volunteer.

If you have any questions, or would like to know more about our organization please feel free to call 208-429-6678 or visit our website at www.friendshipclinic.com.

In deepest gratitude,

The Friendship Clinic Board of Directors
